Why Use BambooHR and LearnUpon Together?

Ensure your people have the training they need to onboard, develop, and skill up.

Save time and reduce errors by eliminating double data entry across systems.

Seamlessly Upskill Employees

AUTOMATE AND TAILOR TRAINING

Automatically enroll learners in relevant courses or groups based on their specific user data, like role or location, without the manual effort.

AUTOMATE ADDING USERS

Automatically sync up-to-the-minute user data, including name, email, and termination date from BambooHR to LearnUpon so you never have to add another user again.

OPTIMIZE EMPLOYEE JOURNEYS

Data syncing means updates to relevant employee information in BambooHR are reflected in LearnUpon without any effort on your part.

REMOVE FORMER EMPLOYEES

Effortlessly manage employee access by automatically disabling users in LearnUpon as soon as the termination date is reached in BambooHR.
